- Create a table to store the data of students.

Student Data

FName	LName	Email	Contact	City	Gender

- Create a Form to take input from users which is as follows:

First name

Last name

email

contact

city

gender

Submit

Cancel

- Create a form as follows:

Enter First name :	<input type="text"/>
Enter Last name :	<input type="text"/>
Enter email :	<input type="text"/>
Enter DOB :	<input type="text"/>
Enter gender :	<input type="text"/>
Upload photo :	<input type="button" value="choose file"/> No file chosen
Are you eligible	<input checked="" type="checkbox"/>
<input type="button" value="Submit"/>	<input type="button" value="Reset"/>

- Create 5 different webpages, name them as follows:

index.html

about.html

contact.html

certifications.html

projects.html

Add interlink
among all

CSS Assignments

(4)

- Change background color of website to black & text color as white.
- Change background color of each section as follows:
 - 1 black
 - 1 white
 - 1 black
 - 1 white

(Apply these changes for project-1 [portfolio])
- Add background image to one of the section and reduce the opacity of photo.

(Apply for project-2 [product catalogue])
- Center your Form as a section / Create a section around your form & add background - color blue. (Apply for project-4 [Survey form].)
- Open W3Schools;
Go to CSS Introduction;
CSS Demo - one HTML page - Multiple Styles!

(i) Style Sheet 1

(ii) Style Sheet 2

(iii) Style Sheet 3

(iv) Style Sheet 4

Practice Set 1

- Create a simple div with an id "box", add some text content inside the div, set its background color to blue.
- Create 3 headings with h1, h2, h3. Give them all a class "heading" & set color of "heading" to red.
- Create a button & set its background color to:
 - * green using css stylesheet
 - * blue using <style> tag
 - * pink using inline style.

Syntax for button:

```
<button> ↓ </button>
link/submit
```

Practice Set 2

- Create a heading centered on the page with all of its text capitalized by default.
- Set the font family of all the content in the document to "Times New Roman".
- Create one div inside another div;

Set id & text "Outer" for the first one & "inner" for the second one.;

Set the outer div text size to 25px & inner div text size to 10px.
